

Legend

Exploration Well Asopus 1

Block 2

Exploration Well Asopus 1 - Study Area / In Situ Field Survey Area (10km)

Exploration Well Asopus 1 - Study Area for High-Mobility Fauna Species (20 km)

Shore Base Facilities (Igoumenitsa Port)

Area 1 ~ 1.000m²

Area 2 ~ 13.000m²

Shorebase Facilities - Study Area (1km)

Warehouses & AUX Building

Warehouse 1 - 550 m²

Warehouse 2 - 200 m²

AUX Building - 90 m²

Corfu International Airport (CFU) (helicopter hangar)

Natura 2000 Network (GC 4432/B/2017)

Birds Directive Sites (SPA)

Habitats Directive Sites (SAC or SCI)

SPA and SAC or SCI

Wildlife Refuges

Landscape of Outstanding Natural Beauty

Political Elements

Country boundaries

Prefectures (GR)

Municipalities (GR)

Greek EEZ and outer limit of the Greek continental shelf

Territorial Waters (GR)

Bathymetric Contours (m)

Notes:

*Map ESIA-02 illustrates the adjacent or affected areas of the National System of Protected Areas (Natura 2000 Network), as well as key environmental features of the wider area, such as Wildlife Refuges & Landscapes of Outstanding Natural Beauty. Other internationally ecologically important areas are presented in Map ESIA-05.

**The study area for the field surveys was extended to a 10 km radius from the Project boundaries, providing an appropriate framework for the collection and assessment of baseline environmental data. For mobile biotic receptors, a 20 km radius was adopted due to the greater mobility of these species.
